Scrisoare de intentie

*Subsemnatul Profesor Emerit Doctor Gh.-Andrei Dan , FESC, FAHA, FACC, FEHRA, imi exprim intentia de a-mi depune candidatura ca **membru in Consiliul CMB.***

In motivarea acesteia aduc urmatoarele argumente:

1. Consider ca importanta, vizibilitatea si interventiile CMB sunt esentiale pentru o activitate medicala etica, coerenta si reprezentata la nivel national, iar acest lucru nu este posibil fara angajamentul, motivatia, disponibilitatea si puterea de lucru a membrilor conducerii Colegiului
2. Consider ca o experienta medicala si didactica de 5 decenii sunt o garantie pentru un discernamant analitic, impartial si transparent privind intelegerea nevoilor, greselilor si a cailor de evolutie optima a acestui organism de breasla.
3. CMB are un numar impresionant de membri (~16.000) iar acestia trebuie reprezentati pentru toate esaloanele de specializare profesionala si apartenenta academica, Bucuresti fiind capitala *de facto* si a vietii medicale din Romania
4. Cred ca exista numeroase frustrari ale populatiei de medici bucuresteni, frustrari impartasite de membrii Consiliului CMB. Mare parte din rezolvarea acestora tine de o reprezentare echitabila la nivel national. Reprezentarea actuala, la paritate regionala si nu legata de membrii activi ai Colegiului, o consider dezechilibrata si contraproductiva si doresc sa militez in continuare pentru rezolvarea acestui aspect spinos.
5. Evenimentele recente au intarit necesitatea imperioasa de crestere a rolului Colegiului in lamurirea aspectelor profesionale (in mod special cele legate de etica si deontologie, dar si cele de practica medicala) la interfata cu justitia sau alte organisme sau institutii legislative.

Medicina este o profesie al carui rezultat nu poate fi inteles si judecat printr-o aritmetica simpla si, in consecinta, Colegiul este institutia abilitata pentru a explica si promova instrumentele de intelegere corespunzatoare

6. In ciuda unei profesii reputeate cu cel mai mare grad de epuizare (*burnout*), medicii nu beneficiaza de nicio facilitate suplimentara (nici macar medicala), asa cum alte institutii (justitia, de exemplu) o au. Trebuie militat pentru corectarea acestui lucru.
7. Cred ca efortul de a aduce medicii din Bucuresti la un « spirit comun » bazat pe principii clare de etica si deontologie si pe respect reciproc ar intari nu numai unitatea profesionala medicala, dar ar creste si respectul institutional si popular pe care profesia medicala il merita si de care are indispensabila nevoie. Este o directie pentru care ma simt apt sa contribui
